

## **CNTNR Modular Building Solutions QC INSPECTOR – Finishing, Shipping**

**CNTNR Modular Building Solutions is a rapidly expanding, innovative modular manufacturing company that is challenging the status quo of the construction industry. We have pioneered a manufacturing process using repurposed steel shipping containers, prefabricated into modular building blocks and assembled on-site to create container-based structures. The result: eco-friendly, structurally superior buildings in half the time of traditional building processes that are also beautiful, functional, and modern.**

**With a product this spectacular we need a team equal to it. If you have the skills and drive to be part of the next generation of construction, apply today. We offer competitive wages, performance bonuses, and profit sharing—because we want the best.**

The QC Inspector – Finishing, Shipping role is full time, offering a highly competitive compensation package including fair wage, benefits and positive company culture.

### **Specific duties include, but are not limited to the following:**

- Providing oversight on all quality control aspects on the interior finishing and shipping of each modular container residential and commercial unit
- Reading and interpreting blueprints, charts and tables
- Monitoring or observing operations to ensure that they meet quality control
- Recommending adjustments to the process or assembly
- Inspecting, testing, or measuring materials or products being produced
- Accepting or rejecting finished items
- Removing or recommending changes to all products and materials that fail to meet specifications
- Performing in process and final inspection of parts and assemblies, including wrapping for shipping
- Recording inspection and test results; preparation and submitting reports to Chief Operations Officer
- Participating in the design and validation of components and adjusting to improve efficiency and productivity within the production and fabrication process
- Filing, preserving and disposing of various Quality Records
- Ensuring standards for safe working conditions are observed
- Coordinating with Foreman, Project Coordinators, and Procurement Manager as required to carry out requirements and expectations

### **Experience and Attributes:**

- Minimum of five years of related experience
- Detailed, organized, thorough and accurate
- Extensive knowledge of building codes
- Physically fit to perform tasks
- Committed to professional development and ongoing learning; accepts training and direction well

- Demonstrated ability to work effectively as part of a team while also maintaining individual tasks and deadlines
- Dedicated to working in and promoting a safe work environment

**Education and Training:**

- Red Seal Carpenter
