By maintaining high ethical standards, and being consistent in our practices, we thrive both personally and professionally. The Construction Industry Ethics course can help your employees navigate the ethical grey areas they face every day.

This course has been designed to help you understand ethics as it relates to the construction industry. The course contains interactive elements, case studies, practical examples, videos, and a course glossary.

### **Objectives:**

Upon completing this course, you will:

- Understand what is included in "ethical behaviour"
- Be aware of the importance of ethics in business
- Know how to make ethical decisions
- Recognize ethics in the context of the law
- Understand the direct link between ethics and a company's success

**Who Should Attend:** senior management, clients, contractors, supervisors, project managers, estimators, and employers

## Testimonials:

### What the members are saying about Ellaline Davies...

*"Fantastic, thorough, expert training! I am so glad that I attended the Injured Worker - WSIB claims management training session. Ella's knowledge has no boundaries, thank you for giving us insight into effective WSIB claims management. I learned far more than I expected to. Looking forward to another training session facilitated by Ella!"*  
**Kelly Gonzalez, NCSO - Health & Safety Coordinator - Cotton Inc.**

*"The seminar on 'Injured Worker - WSIB in the Construction Workplace' was very informative. The participation scenarios were very helpful as it gave us the opportunity to work through various situations that occur in the construction workplace. Well taught and very thorough. I will definitely enroll in other seminars provided by the Niagara Construction Association."*

**Stephanie Swords - Licenced Paralegal - Owner of Swords Law**

*"Very well organised and implemented. The Instructor delivered the course at a good pace pitched at an appropriate level. This course was excellent!"*
