There have been significant changes to the WSIB in Ontario in recent years and how injuries are to be managed by employers.

This course delivers information on managing workplace injuries to prevent financial impacts on the company. It combines a review of the WSIB protocols and a practical component in the completion of forms.

You'll also learn how to manage the case of the injured worker and how to use the WSIB help that is available to you.

The course has a lecture format followed by small group participation and large group discussion.

Who Should Attend:

- Anyone who completes the WSIB forms – Office Managers, HR Managers
- Anyone who oversees the case of an injured worker – H & S Coordinators, Managers
- Anyone who works with the injured worker – Supervisors, Employers

Please see the attached **REGISTRATION FORM**

What are the members saying?

"Fantastic, thorough, expert training! I am so glad that I attended the Injured Worker - WSIB

claims management training session. Ella's knowledge has no boundaries, thank you for giving us insight into effective WSIB claims management. I learned far more than I expected to. Looking forward to another training session facilitated by Ella!"

Kelly Gonzalez, NCSO, Health & Safety Coordinator, Cotton Inc.

"The seminar on WSIB in the Construction Workplace was very informative. The participation scenarios were very helpful as it gave us the opportunity to work through various situations that occur in the construction workplace. Well taught and very thorough. I will definitely enroll in other seminars provided by the Niagara Construction Association." Stephanie
